

Project Demo Planning

Date	18 July 2026
Team ID	XXXXXX
Project Name	Smart Lender: Loan Eligibility Prediction System
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Welcome note, contextual presentation of business values, and loan problem statement overview.	2 mins	Adapala Lakshmi
2	Architecture Overview	Explanation of multi-tier system blocks, routing framework layers, and backend ML modules.	2 mins	P Siva Abhinav
3	Single Applicant Engine	Live walk-through of frontend entry fields interface, input parsing validation, and immediate scoring execution.	3 mins	Adapala Lakshmi
4	Batch Upload Pipeline	Uploading target multi-row customer profile CSV datasets and reviewing execution dashboard metrics tables.	3 mins	P Siva Abhinav
5	Performance Logs & Export	Demonstrating report extraction tools and inspecting active performance bottlenecks logging charts.	2 mins	P Siva Abhinav

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Ensure high-level contextual constraints around standard manual loan evaluations are clarified.
2	Solution Overview	Highlight data prep features and how Scikit-Learn/XGBoost components replace outdated risk filters.
3	Live Feature Demonstration	Dry-run edge vectors (extreme income levels, low credit scores) to verify operational stability.
4	Q&A Session	Prepare metrics snapshots, confusion matrices, and model accuracy sheets to answer panel inquiries.
