

System Architecture Specification

Date	15 March 2026
Team ID	XXXXXX
Project Name	Smart Lender: AI-Based Loan Eligibility Prediction System
Maximum Marks	4 Marks

1. Smart Lender System Architecture Diagram

Below is the flow and sequence of components from data ingestion and processing through to prediction delivery:

- **Trained Model Repository:** Serializes and registers the selected optimal predictor using robust Joblib/Pickle binaries.
- **Production Inference (Flask Backend):** Serves real-time evaluation services returning instant eligibility, probability parameters, and detailed audit history.
